Personal Statement & Goals

My name is Campbell Ray, and I will be a 2027 graduate of Stevenson High School. I have been playing competitive junior golf since I was six years old. I have experienced ups and downs throughout that experience, but my goals have always remained the same: to consistently grow and improve and to eventually play Division I college golf.

I love being a part of my high school golf team after many years of playing individually. Being a member of a team is rewarding and fun, and I consider myself a great teammate and a coachable player. I have a positive attitude, strong emotional and mental game, and consistently work towards being a dependable player for my team. I would love for you to consider me as you recruit your 2027 incoming team members.
